REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The Examiner finds Applicants' arguments on pages 13-17 of the "Brief of Applicant" filed 3 November 2003 concerning a method of monitoring an execution of a query performed by a database system having a query coordinator and at least one data server persuasive as applied to independent claims 36, 49, and 62 as amended. The combinations of prior art from Callahan, II et al. (U.S. Patent No. 6,230,313), Epperson et al. (U.S. patent No. 5,754,771), Posse (U.S. Patent No. 5,544,175), and Bhargava et al. (U.S. Patent No. 5,680,603) neither render obvious nor anticipates the combination of recited elements in light of amended claims 36, 49, and 62. In particular, the combination of Callahan, Epperson, Posse, and Bhargava does not render obvious the phrase "for each thread, generating first execution trace information in the query coordinator, wherein the first execution trace information comprises an execution plan in terms of one or more operator trees."

CONCLUSION

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
